## SUBJECT INDEX

### Absolute Age, Dates

Early Cambrian granites, Algerian Sahara: Boissonnas, J. *et al.*, 25.  
K-Ar ages, east coast of Labrador: Grasty, R. L. *et al.*, 340.  
K-Ar ages of dolerite plugs, S. Cariboo Region, B.C.: Farquharson, R. B. and Stipp, J. J., 1468.  
Precambrian Coldbrook Group, New Brunswick: Cormier, R. F., 393.  
Radiometric ages of Nipissing diabase and Huronian metasediments, Ontario: Fairbairn, H. W. *et al.*, 489.  
Radiocarbon dates, Champlain Sea: Elson, J. A., 367.  
White River Ash, Yukon: Lerbekmo, J. F. and Campbell, F. A., 109.

### Africa

Early Cambrian granites, Algerian Sahara: Boissonnas, J. *et al.*, 25.

### Alaska

Activity pre-1956 Muldrow Glacier surge: Harrison, A. E., 1001.  
Surges in Glacier Bay, 1965-1968: Field, W. O., 831.  
The 1978-1980 Sherman Glacier surge: Bull, C., 841.

### Alberta

Airborne remote sensing for groundwater: Chase, M. E., 737.  
Carbonate and sulfate saturation, thermal and mineral springs, S. Rocky Mountains: van Everdingen, R. O., 1421.  
Devonian stromatoporoids: Fischbuch, N. R., 167.  
Karst springs near Banff: van Everdingen, R. O., 545.  
*Kritosaurus notabilis* (Lambe), Cretaceous: Waldman, M., 569.  
Mineralogy of Eastend and Whitemud Fms., Sask. and Alta.: Byers, P. N., 317.  
New *Aquilapollenites*, Edmonton Fm.: Srivastava, S. K., 133.  
Pleistocene cat remains, Yukon: Harrington, C. R., 1277.  
Pollen genus *Wodehousea*, Edmonton Fm.: Srivastava, S. K., 1307.  
Provenance of Kneehills Tuff: Bindu, P. L., 510.  
*Stenonychosaurus*, sp., Oldman Fm.: Russell, D. A., 595.  
Sub-Cambrian unconformity: Aitken, J. D., 193.

### Aldan Shield

Precambrian geochronology: Burwash, R. A., 357.

### Algerian Sahara

Early Cambrian granites: Boissonnas, J. *et al.*, 25.

### Alps

Ancient glacier surge in Swiss Alps: Röthlisberger, H., 863.  
Vernagtferner surges since 1599: Hoinkes, H., 853.

### Analog Models

Conductivity model for Alert anomaly, N.W.T.: Dyck, A. V. and Garland, G. D., 513.

### Anorthosite

High-pressure experimental studies on: Green, T. H., 427.  
Mistassin L., Labrador: Taylor, F. C. and Dence, M. R., 39.

### Antarctica

Climatic effects of surges of ice sheets: Wilson, A. T., 911.

### Aphelian

Microfossils, Belcher Islands, Hudson Bay: Hofmann, H. J. and Jackson, G. D., 1137.

### Appalachians

First refraction arrivals in Gaspé from Labrador and Quebec: Rankin, D. S. *et al.*, 771.  
Geology of Belle Isle, Newfoundland: Williams, H. and Stevens, R. K., 1145.  
Paleomagnetism of Perry Fm., New Brunswick. (Discussion): Pearce, G. W. and Freda, G. N., 353; (Reply): Robertson, W. A. *et al.*, 356.

### Archean

Timiskaming volcanism, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.

### Arctic Canada

Geochemistry of an Arctic watershed: Macdougall, J. D. and Harriss, R. C., 305.  
Good Friday Glacier, Axel Heiberg Island: Müller, F., 891.  
New Lower Devonian rock unit: Ormiston, A. R., 1105.  
Otto Glacier, Ellesmere Island: Hattersley-Smith, G., 883.  
Structure, metamorphism, development of Boothia Arch, Brown, R. L. *et al.*, 525.  
Surges on Barnes Ice Cap, Baffin Island: Løken, O. H., 899.

### Asia

Detection of earthquakes and underground explosions in: Basham, P. W., 1455.

### Astronomy

Age of solar system: Cumming, G. L., 719.

**Atlantic Ocean**

Fission track and ferro-manganese chronology, Mid-Atlantic Ridge near 45°N.: Aumento, F., 1431.  
 Foraminiferal distribution, sedimentary facies, Grand Banks: Sen Gupta, B. K. and McMullen, R. M., 475.  
 Northwest Atlantic Mid-Ocean Canyon: Heezen, B. C. *et al.*, 1441.  
 Tertiary strata off Nova Scotia: Marlowe, J. I., 1077.  
 Water properties in Median Valley, Mid-Atlantic Ridge near 45°N.: Garner, D. M. and Ford, Wm. L., 1359.

**Austria**

Vernagtferner surges since 1599: Hoinkes, H., 853.

**Baltic Shield**

Precambrian geochronology: Burwash, R. A., 357.

**Basalt**

Aiyansh lava flow, British Columbia: Sutherland Brown, A., 1460.  
 Bald Mountain, Mid-Atlantic Ridge: Aumento, F. and Loncarevic, B. D., 11.

**Bentonite**

Reaction of mixed hydroxides with: Clark, J. S. and Ross, G. J., 47.

**Black Sea**

Absence of 'granitic layer' in basins of S. Caspian and Black Sea type: Rezanov, I. A. and Chamo, S. S., 671.

**Bibliography**

References to glacier surges in N. America: Horvath, E. V. and Field, W. O., 845.

**British Columbia**

Age of Tulameen ultramafic complex: Findlay, D. C., 399.  
 Aiyansh lava flow: Sutherland Brown, A., 1460.  
 Carbonate and sulfate saturation, thermal and mineral springs, S. Rocky Mountains: van Everdingen, R. O., 1421.  
 Coral-like fossils: Handfield, R. C., 782.  
 Deep resistivity measurements, Fraser Valley, B.C.: Samson, J. C., 1129.  
 Evolution of Slocan Syncline, British Columbia. (Discussion): Fyles, J. T., 802.  
 Feldspars from Adamant pluton: Fox, P. E. and Moore, J. M., 1199.  
 Gravity measurements, west coast: Stacey, R. A. and Stephens, L. E., 463.  
 K-Ar ages of dolerite plugs, S. Cariboo Region, B.C.: Farquharson, R. B. and Stipp, J. J., 1468.  
 Paleomagnetism of four gabbro plugs: Symons, D. T. A., 653.  
 Sedimentation in Upper Arrow Lake: Fulton, R. J. and Pullen, M. J. L. T., 785.

**Cambrian**

Belle Isle, Newfoundland: Williams, H. and Stevens, R. K., 1145.  
 Coral-like fossils, W. Canada: Handfield, R. C., 782.  
 Granites, Algerian Sahara: Boissonnas, J. *et al.*, 25.  
 Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.  
 Unconformity beneath, Alberta: Aitken, J. D., 193.

**Canadian Shield**

Correlation of Proterozoic strata: Fraser, J. A. and Tremblay, L. P., 1.  
 Paleomagnetic evidence for extent of Mackenzie igneous events: Fahrig, W. F. and Jones, D. L., 679.  
 Precambrian geochronology: Burwash, R. A., 357.  
 Ultramafic intrusions, Abitibi area, Ontario: MacRae, N. D., 281.

**Carbonates**

Regional geochemical study, Slave Pt. carbonates, W. Canada: Cameron, E. M., 247.

**Carboniferous**

Carbonate-sulfate-redbed facies, Maritime Provinces: Schenk, P. E., 1037.

**Caspian Sea**

Absence of 'granitic' layer in basins of S. Caspian and Black Sea type: Rezanov, I. A. and Chamo, S. S., 671.

**Cat**

Pleistocene cat remains, Yukon and Alaska: Harrington, C. R., 1277.

**Cataloguing methods**

Rock cataloguing with Keysort cards: Erdosh, G., 503.

**Central Asia**

Glacier surges, Karakoram Himalaya: Hewitt, K., 1009.

**Champlain Sea**

Radiocarbon dates, Champlain Sea: Elson, J. A., 367.

**Changes of level**

Glacial history and emergence, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.  
 Late-glacial marine overlap, W. Newfoundland: Brookes, I. A., 1397.

**Churchill Province**

Aeromagnetic study, northern Manitoba: Kornik, L. J., 373.

Structure, metamorphism, development of Boothia Arch, Arctic Canada: Brown, R. L. *et al.*, 525.

**Computer programs**

Machine contouring: Smith, F. G., 187.

**Continental Shelf**

Tertiary strata off Nova Scotia: Marlowe, J. I., 1077.

**Correlation**

Proterozoic strata, northwestern Canadian Shield: Fraser, J. A. and Tremblay, L. P., 1.

Radiometric ages of Nipissing diabase and Huronian metasediments, Ontario: Fairbairn, H. W. *et al.*, 489.

**Craters**

Application des méthodes électriques, Holleford: Andrieux, P. et Clark, J. F., 1325.

Meteorite origin, Mistastin L., Labrador: Taylor, F. C. and Dence, M. R., 39.

**Cretaceous**

*Ichthyodectes* and *Holcolepis*, N.W.T.: Waldman, M., 1316.

*Kritosaurus notabilis* (Lambe), Alberta: Waldman, M., 569.

Mineralogy of Eastend and Whitemud Fms., Saskatchewan and Alberta: Byers, P. N., 317.

New *Aquilapollenites*, Edmonton Fm., Alberta: Srivastava, S. K., 133.

Pollen genus *Wodehousea*, Edmonton Fm., Alberta: Srivastava, S. K., 1307.

Provenance of Kneehills Tuff, S. Alberta: Binda, P. L., 510.

*Stenonychosaurus*, sp., Oldman Fm., Alberta: Russell, D. A., 595.

**Crust**

Absence of 'granitic' layer in basins of S. Caspian and Black Sea type: Rezanov, I. A. and Chamo, S. S., 671.

Structure, northwestern Ontario: Hall, D. H. and Hajnal, Z., 81.

Structure, northwestern Ontario: McGrath, P. H. and Hall, D. H., 101.

**Crustal stress**

Under a two-dimensional lake: Gough D. I., 1067.

**Crystal settling**

In sills: a model for suspension settling: Gray, N. H. and Crain, I. K., 1211.

**Deformation**

Cratonic reactivation, Precambrian basement, W. Canada. I. Deformation and chemistry: Burwash, R. A. and Krupiška, J., 1381.

**Deglaciation**

Evidence of, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.

**Density currents**

Laboratory study: Riddell, J. F., 231.

**Devonian**

Metamorphism of Precambrian Coldbrook Group, New Brunswick: Cormier, R. F., 393.

New rock unit, Arctic Canada: Ormiston, A. R., 1105.

Paleomagnetism of Perry Fm., New Brunswick. (Discussion): Pearce, G. W. and Freda, G. N., 353; (Reply): Robertson, W. A. *et al.*, 356.

Regional geochemical study, Slave Pt. carbonates, W. Canada: Cameron, E. M., 247.

Stromatoporoids, Alberta: Fischbuch, N. R., 167.

**Diabase**

Mechanics of intrusion of sills: Gretener, P. E., 1415.

**Dikes**

Dike swarm of S.W. Greenland: Watt, W. S., 1320.

**Dinosaurs**

*Kritosaurus notabilis* (Lambe), Cretaceous, Alberta: Waldman, M., 569.

*Stenonychosaurus*, sp., Oldman Fm., Alberta: Russell, D. A., 595.

**Earthquakes**

Detection of earthquakes and underground explosions in Asia: Basham, P. W., 1455.

**Economic Geology**

Post-ore diabase, Noranda, Quebec: Darling, R. and Suffel, G. G., 781.

Size frequency distribution, oil and gas reserves, Western Canada: McCrossan, R. G., 201.

**Electrical methods**

Application à l'étude du cratère d'Holleford: Andrieux, P. et Clark, J. F., 1325.

**Eolian features**

Erosional columns in dune sands, Cape Sable Is., Nova Scotia: Gees, R. A., and Lyall A. K., 344.

**Explosion Phenomena**

Detection of earthquakes and underground explosions in Asia: Basham, P. W., 1455.

**Faults**

Bald Mountain, Mid-Atlantic Ridge: Aumento, F. and Loncarevic, B. D., 11.

Displacement and stress field, Cobéquid Fault, N.S.: Eibacher, G. H., 1095.

Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.  
St. Dominique fault, S. Quebec: Kumarapeli, P. S., 775.

#### Feldspars

Adamant pluton, British Columbia: Fox, P. E. and Moore, J. M., 1199.

#### Fishes

Pleistocene grayling *Thymallus*, Yukon: McAllister, D. E. and Harington, C. R., 1185.

#### Folds

Balanced cross-sections: Dahlstrom, C. D. A., 743.  
Development of Paleozoic rocks, western Gaspé, Quebec: Sikander, A. H. and Fyson, W. K., 1113.  
Striations, grooves, drag folds, Interlake area, Manitoba: Wardlaw, N. C. *et al.*, 577.  
Structure, metamorphism, development of Boothia Arch, Arctic Canada: Brown, R. L. *et al.*, 525.

#### Foraminifera

Distribution of, and sedimentary facies, Grand Banks: Sen Gupta, B. K. and McMullen, R. M., 475.

#### Gabbro

Dike swarm of S.W. Greenland: Watt, W. S. 1320.  
Paleomagnetism of, British Columbia, Symons, D. T. A. 653.

#### General Geology

Belle Isle, Newfoundland: Williams, H. and Stevens, R. K., 1145.  
Geochronology, Makkovik Bay area, Labrador: Gandhi, S. S., 1019.

#### Geochemistry

Calculation of diopside-fluorite eutectic: Shaw, D. M. and Gibson, S. M., 1458.  
Carbonate and sulfate saturation, thermal and mineral springs, S. Rocky Mountains: van Everdingen, R. O., 1421.  
Cratonic reactivation, Precambrian basement, w. Canada. I. Deformation and chemistry: Burwash, R. A. and Krupička, J., 1381.  
Differentiation of Dundonald sill, Ontario: Pearce, T. H., 75.  
Geochemistry of an Arctic watershed: Macdougall, J. D. and Harriss, R. C., 305.  
Late Precambrian ignimbrites, Avalon Peninsula, Newfoundland: Papezik, V. S., 1405.  
Reaction of mixed hydroxides with Wyoming bentonite: Clark, J. S. and Ross, G. J., 47.  
Regional study, Slave Pt. carbonates, W. Canada: Cameron, E. M., 247.

#### Geochronology

Age of solar system: Cumming, G. L., 719.  
Early Cambrian granites, Algerian Sahara: Boissonnas, J. *et al.*, 25.  
Fission track and ferro-manganese chronology, Mid-Atlantic Ridge near 45° N.: Aumento, F., 1431.  
Geology, Makkovik Bay area, Labrador: Gandhi, S. S., 1019.  
K-Ar ages, east coast of Labrador: Grasty, R. L. *et al.*, 340.  
K-Ar ages of dolerite plugs, S. Cariboo Region, B.C.: Farquharson, R. B. and Stipp, J. J., 1468.  
Precambrian, North American, European, and Siberian Shields: Burwash, R. A., 357.  
Precambrian Coldbrook Group, New Brunswick: Cormier, R. F., 393.  
Radiocarbon dates, Champlain Sea: Elson, J. A., 367.  
Radiometric ages of Nipissing diabase and Huronian metasediments, Ontario: Fairbairn, H. W. *et al.*, 489.

#### Geomagnetism

Conductivity model for Alert anomaly, N.W.T.: Dyck, A. V. and Garland, G. D., 513.

#### Geomorphology

Erosional columns in dune sands, Cape Sable Is., Nova Scotia: Gees, R. A. and Lyall, A. K., 344.

#### Geophysical Methods

Mode tectonique, bordure ouest, partie centrale de la fosse du Labrador: Seguin, M., 1365.

#### Geophysics

Absence of 'granitic layer' in basins of S. Caspian and Black Sea type: Rezanov, I. A. and Chamo, S. S., 671.  
Aeromagnetic study, northern Manitoba: Kornik, L. J., 373.  
Airborne remote sensing for groundwater: Chase, M. E., 737.  
Application des méthodes électriques à l'étude du cratère d'Holleford: Andrieux, P. et Clark, J. F., 1325.  
Calculating climatic corrections to heat flow measurements: Crain, I. K., 499.  
Compressional wave velocities, Keweenawan rocks, Lake Superior region: Halls, H. C., 555.  
Conductivity model for Alert anomaly, N.W.T.: Dyck, A. V. and Garland, G. D., 513.  
Crustal structure, northwestern Ontario: Hall, D. H. and Hajnal, Z., 81.  
Crustal structure, regional magnetic anomalies, northwestern Ontario: McGrath, P. H. and Hall, D. H., 101.  
Deep resistivity measurements, Fraser Valley, B.C.: 1129.  
Detection of earthquakes and underground explosions in Asia: Basham, P. W., 1455.  
First refraction arrivals in Gaspé from Labrador and Quebec: Rankin, D. S. *et al.*, 771.  
Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.  
Gravity variations and precipitation. (Discussion): Jacoby, W. R., 801; (Reply): Luiz, A. M., 802.  
Gravity variations and precipitation: Luiz, A. M. 190.  
Gravity variations and precipitation onset: Gendzwill, D. J. and Maybank, J., 1322.  
Heat flow, Eldorado, Saskatchewan: Lewis, T., 1191.  
Large-scale magnetotelluric survey, Western Canada: Caner, B. *et al.*, 1245.  
Magnetic "Field Free" spaces for paleomagnetism: Roy, J. L. *et al.*, 1312.  
Magnetotelluric calculations: Praus, O. and Petr, V., 759.

Paleomagnetic evidence for extent of Mackenzie igneous events: Fahrig, W. F. and Jones, D. L., 679.  
 Paleomagnetism, Croker Island Complex, Ontario: Palmer, H. C., 213.

Paleomagnetism of Cumberland Group: Roy, J. L., 663.

Paleomagnetism of four gabbro plugs, British Columbia: Symons, D. T. A., 653.

Precambrian rock densities, Amisk Lake - Flin Flon area: Gendzwill, D. J., 1227.

Rayleigh-wave dispersion in the Pacific: Savage, J. C. and White, W. R. H., 1289.

Seismic survey, Upper Arrow Lake, British Columbia: Fulton, R. J. and Pullen, M. J. L. T., 785.

Stress under a two-dimensional lake: Gough, D. I., 1067.

Theoretical seismography response at Yellowknife to explosion in Nevada: Hasegawa, H. S. and Whitham, K., 517.

#### Geosynclines

Gravity measurements, west coast: Stacey, R. A. and Stephens, L. E., 463.

Proterozoic paleocurrents, depositional history, Great Slave Lake: Hoffman, P., 441.

#### Glacial History

Evidence of deglaciation, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.

#### Glaciation

Activity pre-1956 Muldrow Glacier surge, Alaska: Harrison, A. E., 1001.

Ancient glacier surge in Swiss Alps: Röthlisberger, H., 863.

Climatic effects of surges of ice sheets: Wilson, A. T., 911.

Comparison of moraines: Rutter, N. W., 991.

Evidence of deglaciation, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.

Glacier surges, Karakoram Himalaya, Central Asia: Hewitt, K., 1009.

Glacier surges in eastern Svalbard: Schytt, V., 867.

Glacier surges in Iceland: Thorarinsson, S., 875.

Glacier surges in West Spitzbergen: Liestøl, O., 895.

Good Friday Glacier, Axel Heiberg Island: Müller, F., 891.

Ice-dam, powder-flow theory of glacier surges: Nielsen, L. E., 955.

Ice-sheet surges and geological record: Hollin, J. T., 903.

Initiation of glacier surges: de Q. Robin, G., 919.

Model for varve deposition, glacial Lake Barlow-Ojibway: Agterberg, F. P. and Banerjee, I., 625.

Otto Glacier, Ellesmere Island: Hattersley-Smith, G., 883.

Propagation of glacier surges: de Q. Robin, G. and Barnes, P., 969.

References to glacier surges in N. America: Horvath, E. V. and Field, W. O., 845.

Steele Glacier surge, Yukon: Stanley, A. D., 819.

Striations, grooves, drag folds, Interlake area, Manitoba: Wardlaw, N. C. *et al.*, 577.

Surges in Glacier Bay, Alaska, 1965-1968: Field, W. O., 831.

Surges on Barnes Ice Cap, Baffin Island: Løken, O. H. 899.

Summary of St. Hilaire Symposium on glacier surges: Meier, M. F., 987.

The 1978-1980 Sherman Glacier surge, Alaska: Bull, C., 841.

Théorie des ondes glaciaires: Lliboutry, L. A., 943.

Three-dimensional surges: Campbell, W. J. and Rasmussen, L. A., 979.

Vernagtferner surges since 1599: Hoinkes, H., 853.

Water lubrication mechanism of glacier surges: Weertman, J., 929.

What are glacier surges? Meier, M. F. and Post, A., 807.

#### Glacier Surges

Activity pre-1956 Muldrow Glacier surge, Alaska: Harrison, A. E., 1001.

Ancient glacier surge in Swiss Alps: Röthlisberger, H., 863.

Barnes Ice Cap, Baffin Island: Løken, O. H., 899.

Climatic effects of surges of ice sheets: Wilson, A. T., 911.

Comparison of moraines: Rutter, N. W., 991.

Good Friday Glacier, Axel Heiberg Island: Müller, F., 891.

Ice deformation under shear stresses: Jonas, J. J. and Müller, F., 963.

Ice-sheet surges and geological record: Hollin, J. T., 903.

Ice-dam, powder-flow theory of: Nielsen, L. E., 955.

In eastern Svalbard: Schytt, V., 867.

In Iceland: Thorarinsson, S., 875.

In West Spitzbergen: Liestøl, O., 895.

Initiation of: de Q. Robin, G., 919.

Karakoram Himalaya, Central Asia: Hewitt, K., 1009.

Otto Glacier, Ellesmere Island: Hattersley-Smith, G., 883.

Propagation of glacier surges: de Q. Robin, G. and Barnes, P., 969.

References to, in N. America: Horvath, E. V. and Field, W. O., 845.

Steele Glacier Surge, Yukon: Stanley, A. D., 819.

Summary of St. Hilaire symposium on: Meier, M. F., 987.

Surges in Glacier Bay, Alaska, 1965-1968: Field, W. O., 831.

The 1978-1980 Sherman Glacier surge, Alaska: Bull, C., 841.

Théorie des ondes glaciaires: Lliboutry, L. A., 943.

Three dimensional surges: Campbell, W. J. and Rasmussen, L. A., 979.

Vernagtferner surges since 1599: Hoinkes, H., 853.

Water lubrication mechanism of: Weertman, J., 929.

What are glacier surges? Meier, M. F. and Post, A., 807.

**Grand Banks**

Foraminiferal distribution, sedimentary facies: Sen Gupta, B. K. and McMullen, R. M., 475.

**Granites**

Early Cambrian age, Algerian Sahara: Boissonnas, J. *et al.*, 25.

**Gravity**

Gravity variations and precipitation: Luiz, A. M., 190.

Gravity variations and precipitation onset: Gendzwill, D. J. and Maybank, J., 1322.

**Gravity Surveys**

Gravity measurements, west coast: Stacey, R. A. and Stephens, L. E., 463.

Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.

Precambrian rock densities, Amisk Lake - Flin Flon area: Gendzwill, D. J., 1227.

**Greenland**

Dike swarm of S.W. Greenland: Watt, W. S., 1320.

**Grenville Province**

Cordierite-gedrite rocks, Harcourt Tp., Ontario: Lal, R. K. and Moorhouse, W. W., 145.

Nepheline gneisses, Wolfe Belt, Lyndoch Tp., Ontario: Appleyard, E. C., 689.

K-Ar ages, east coast of Labrador: Grasty, R. L. *et al.*, 340.

**Groundwater**

Salt-water intrusion, P.E.I.: Carr, P. A., 63.

Wilson Creek Experimental Watershed, Manitoba: Newbury, R. W. *et al.*, 613.

**Heat Flow**

At Eldorado, Saskatchewan: Lewis, T., 1191.

Calculating climatic corrections to heat flow measurements: Crain, I. K., 499.

**Himalaya**

Glacier surges, Karakoram Himalaya: Hewitt, K., 1009.

**Historical Geology**

Ice-sheet surges and geological record: Hollin, J. T., 903.

**History of Geology**

Peter Kalm's observations in New France 1749: Kranck, E. H., 347.

**Hudson Bay**

Precambrian microfossils, Belcher Islands, Hudson Bay: Hofmann, H. J. and Jackson, G. D., 1137.

**Hydrogeology**

Carbonate and sulfate saturation, thermal and mineral springs, S. Rocky Mountains: van Everdingen, R. O., 1421.

Karst springs near Banff, Alberta: van Everdingen, R. O., 545.

Salt-water intrusion, P.E.I.: Carr, P. A., 63.

**Iceland**

Glacier surges: Thorarinsson, S., 875.

**Ice Mechanics**

Ice deformation under shear stresses: Jonas, J. J. and Müller, F., 963.

Propagation of glacier surges: de Q. Robin, G. and Barnes, P., 969.

Water lubrication mechanism of glacier surges: Weertman, J., 929.

**Igneous Rocks**

High-pressure studies on anorthosite: Green, T. H., 427.

Late Precambrian ignimbrites, Avalon Peninsula, Newfoundland: Papezik, V. S., 1405.

Mechanics of intrusion of sills: Gretener, P. E., 1415.

Timiskaming volcanism, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.

**India**

Glacier surges, Karakoram Himalaya: Hewitt, K., 1009.

**Insects**

Pennsylvanian correlation using blattoids: Durden, C. J., 1159.

**Jurassic**

Dike swarm of S.W. Greenland: Watt, W. S., 1320.

**Labrador**

Geology and geochronology, Makkovik Bay area: Gandhi, S. I. *et al.*, 1019.

Mode tectonique, bordure ouest, partie centrale de la fosse de Labrador: Seguin, M., 1365.

K-Ar ages, east coast: Grasty, R. L. *et al.*, 340.

Probable meteorite origin, Mistassini L., Labrador: Taylor, F. C. and Dence, M. R., 39.

**Labrador Trough**

Mode tectonique, bordure ouest de la partie centrale: Seguin, M., 1365.

**Lake Superior Region**

Compressional wave velocities, Keweenawan rocks: Halls, H. C., 555.

**Magnetic Surveys**

Crustal structure, northwestern Ontario: McGrath, P. H. and Hall, D. H., 101.  
Northern Manitoba: Kornik, L. J., 373.

**Magnetic Anomalies**

Crustal structure, northwestern Ontario: McGrath, P. H. and Hall, D. H. 101.

**Magnetotelluric Methods**

Magnetotelluric calculations: Praus, O. and Petr, V., 759.

**Magnetotelluric Surveys**

Large-scale survey, Western Canada: Caner, B. *et al.*, 1245.

**Manitoba**

Aeromagnetic study, northern Manitoba: Kornik, L. J., 373.

Groundwater-streamflow systems, Wilson Creek Experimental Watershed: Newbury, R. W. *et al.*, 613.

Precambrian rock densities, Amisk Lake - Flin Flon area: Gendzwill, D. J., 1227.

Striations, grooves, drag folds, Interlake area: Wardlaw, N. C. *et al.*, 577.

**Maritime Provinces**

Carbonate-sulfate-redbed facies, Middle Carboniferous: Schenk, P. E., 1037.

**Mechanics of Intrusion**

Of sills: Gretener, P. E., 1415.

**Mesozoic**

Pollen genus *Wodehousea*, Edmonton Fm., Alberta: Srivastava, S. K., 1307.

St. Domingue fault, S. Quebec: Kumarapeli, P. S., 775.

**Metamorphic Rocks**

Cordierite-gedrite rocks, Harcourt Tp., Ontario: Lal, R. K. and Moorhouse, W. W., 145.

Genèse des roches à cordiérite-anthophyllite, Rouyn-Noranda, Québec: de Rosen-Spence, A., 1339.

Geology and geochronology, Makkovik Bay area, Labrador: Gandhi, S. S., *et al.*, 1019.

Nepheline gneisses, Wolfe Belt, Lyndoch Tp., Ontario: Appleyard, E. C., 689.

**Metamorphism**

Structure, metamorphism, development of Boothia Arch, Arctic Canada: Brown, R. L. *et al.*, 525.

**Meteorite Crater**

Probable origin, Mistastin L., Labrador: Taylor, F. C. and Dence, M. R., 39.

**Meteorology**

Gravity variations and precipitation: Luiz, A. M., 190.

Gravity variations and precipitation. (Discussion): Jacoby, W. R., 801; (Reply): Luiz, A. M., 802.

Gravity variations and precipitation onset: Gendzwill, D. J. and Maybank, J., 1322.

**Mid-Atlantic Ridge**

Bald Mountain, basalts from: Aumento, F. and Loncarevic, B. D., 11.

Fission-track and ferro-manganese chronology, Mid-Atlantic Ridge near 35° N.: Aumento, F., 1431.

Water properties in Median Valley, near 45° N.: Garner, D. M. and Ford, Wm. L., 1359.

**Mineralogy**

Calculation of diopside-fluorite eutectic: Shaw, D. M. and Gibson, S. M., 1458.

Clay mineralogy, Arctic watershed: Macdougall, J. D. and Harriss, R. C., 305.

Diaspore in Lorrain Fm. quartzites, Ontario: Chandler, F. W. *et al.*, 337.

Eastend and Whitemud Fms., Saskatchewan and Alberta: Byers, P. N., 317.

Nepheline gneisses, Wolfe Belt, Lyndoch Tp., Ontario: Appleyard, E. C., 689.

Pseudoleucite, west-central Yukon: Tempelman-Kluit, D. J., 55.

System  $\text{CaF}_2 - \text{CaMgSi}_2\text{O}_6$ : Lin, S. B. and Burley, B. J., 269.

**Miocene**

Paleomagnetism of four gabbro plugs, British Columbia: Symons, D. T. A., 653.

**Montana**

Pliocene *Neohippurion*, Flaxville Gravels: Storer, J. E., 791.

**Mya arenaria**

Radiocarbon dates on, Champlain Sea: Elson, J. A., 367.

**New Brunswick**

Age of Coldbrook Group: Cormier, R. F., 393.

Carbonate-sulfate-redbed facies, Middle Carboniferous: Schenk, P. E., 1037.

Paleomagnetism of Perry Fm. (Discussion): Pearce, G. W. and Freda, G. N., 353; (Reply): Robertson, W. A. *et al.*, 356.

**Newfoundland**

Foraminiferal distribution, sedimentary facies, Grand Banks: Sen Gupta, B. K. and McMullen, R. M., 475.

Geology and geochronology, Makkovik Bay area, Labrador: Gandhi, S. S., *et al.*, 1019.

Geology of Belle Isle: Williams, H. and Stevens, R. K., 1145.

 Conductivity model for Alert anomaly: Dyck, A. V. and Garland, G. D., 513.  
 Coral-like fossils: Handfield, R. C., 782.  
 Correlation of Proterozoic strata: Fraser, J. A. and Tremblay, L. P., 1.  
 Evidence of deglaciation, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.  
*Ichthyodectes* and *Holcolepis*, Cretaceous: Waldman, M., 1316.  
 Paleomagnetic evidence for extent of Mackenzie igneous events: Fahrig, W. F. and Jones, D. L., 679.  
 Proterozoic paleocurrents, depositional history, Great Slave Lake: Hoffman, P., 441.  
 Structure, metamorphism, development of Boothia Arch, Arctic Canada: Brown, R. L. *et al.*, 525.  
 Theoretical seismography response at Yellowknife to explosion in Nevada: Hasegawa, H. S. and Whitham, K., 517.

**Nova Scotia**  
 Carbonate-sulfate-redbed facies, Middle Carboniferous: Schenk, P. E., 1037.  
 Displacement and stress field, Cobequid Fault: Eibacher, G. H., 1095.  
 Erosional columns in dune sands, Cape Sable Is.: Gees, R. A. and Lyall, A. K., 344.  
 Paleomagnetism of Cumberland Group: Roy, J. L., 663.

**Oceanography**  
 Current, temperature, and depth data from a moored buoy. (Discussion): Needler, G. T., 521; (Discussion): Stewart, R. W., 522; (Reply): Grant, D. A., 523.  
 Fission-track and ferro-manganese chronology, Mid-Atlantic Ridge near 45° N.: Aumento, F., 1431.  
 Tertiary strata off Nova Scotia: Marlowe, J. I., 1077.  
 Water properties in Median Valley, Mid-Atlantic Ridge near 45° N.: Garner, D. M. and Ford, W. L., 1359.

**Oil and Gas Reserves**  
 Size frequency distribution of, Western Canada: McCrossan, R. G., 201.

**Ontario**  
 Application des méthodes électriques à l'étude du cratère d'Holleford: Andrieux, P. et Clark, J. F., 1325.  
 Compressional wave velocities, Keweenawan rocks, Lake Superior region: Halls, H. C., 555.  
 Cordierite-gedrite rocks, Harcourt Tp.: Lal, R. K. and Moorhouse, W. W., 145.  
 Crustal structure, northwestern Ontario: Hall, D. H. and Hajnal, Z., 81.  
 Crustal structure, regional magnetic anomalies, northwestern Ontario: McGrath, P. H. and Hall, D. H., 101.  
 Diaspore in Lorrain Fm. quartzites, Ontario: Chandler, F. W. *et al.*, 337.  
 Differentiation of Dundonald sill: Pearce, T. H., 75.  
 Inorganic vermicular structures, Gordon Lake Fm.: Young, G. M., 795.  
 Model for varve deposition, glacial Lake Barlow-Ojibway: Agterberg, F. P. and Banerjee, I., 625.  
 Nepheline gneisses, Wolfe Belt, Lyndoch Tp.: Appleyard, E. C., 689.  
 Paleomagnetism, Croker Island Complex, Ontario: Palmer, H. C., 213.  
 Progress report on Huronian stratigraphy: Robertson, J. A. *et al.*, 335.  
 Radiometric ages of Nipissing diabase and Huronian metasediments: Fairbairn, W. H. *et al.*, 489.  
 Timiskaming volcanism, Kirkland Lake area: Cooke, D. L. and Moorhouse, W. W., 117.  
 Two residual soils, Peterborough County, Ontario: Gillespie, J. E. and Protz, R., 1217.  
 Ultramafic intrusions, Abitibi area: MacRae, N. D., 281.

**Ordovician**  
 Geometrical analysis, cross-lamination, Gaspé, Quebec: Walker, R. G., 383.  
 Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.

**Ostracodes**  
 As Quaternary paleoecological indicators: Delorme, L. D., 1471.

**Pacific Ocean**  
 Rayleigh-wave dispersion: Savage, J. C. and White, W. R. H., 1289.

**Paleobotany**  
 Pollen genus *Wodehousea*, Edmonton Fm., Alberta: Srivastava, S. K., 1307.

**Paleoecology**  
 Ostracodes as Quaternary paleoecological indicators: Delorme, L. D., 1471.

**Paleomagnetism**

Croker Island Complex, Ontario: Palmer, H. C., 213.  
 Cumberland Group and other Paleozoic formations: Roy, J. L., 663.  
 Extent of Mackenzie igneous events: Fahrig, W. F. and Jones, D. L., 679.  
 Four Miocene gabbro plugs, British Columbia: Dymons, D. T. A., 653.  
 Magnetic "Field Free" spaces: Roy, J. L. *et al.*, 1312.  
 Perry Fm., New Brunswick, and rotation of Newfoundland. (Discussion): Pearce, G. W. and Freda, G. N., 353;  
 (Reply): Robertson, W. A. *et al.*, 356.

**Paleontology**

Devonian stromatoporoids, Alberta: Fischbuch, N. R., 167.  
 Early Cambrian coral-like fossils, W. Canada: Handfield, R. C., 782.  
*Ichthyodectes* and *Hololepis*, Cretaceous, N.W.T.: Waldman, M., 1316.  
*Kritosaurus notabilis* (Lambe), Cretaceous, Alberta: Waldman, M., 569.  
 Ostracodes as Quaternary paleoecological indicators: Delorme, L. D., 1471.  
 Pennsylvanian correlation using blattoids: Durden, C. J., 1159.  
 Pleistocene cat remains, Yukon and Alaska: Harington, C. R., 1277.  
 Pleistocene grayling *Thymallus*, Yukon: McAllister, D. E. and Harington, C. R., 1185.  
 Pliocene *Neohippurion*, Flaxville Gravels, Montana: Storer, J. E., 791.  
 Precambrian microfossils, Belcher Islands, Hudson Bay: Hofmann, H. J. and Jackson, G. D., 1137.  
*Stenynchosaurus* sp., Oldman Fm., Alberta: Russell, D. A., 595.

**Paleozoic**

Displacement and stress field, Cobéquid Fault, N.S.: Eisbacher, G. H., 1095.  
 Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.  
 Paleomagnetism of Cumberland Group: Roy, J. L., 663.  
 Pennsylvanian correlation using blattoids: Durden, C. J., 1159.  
 St. Dominique fault, S. Quebec: Kumarapeli, P. S., 775.  
 Structural development of western Gaspé, Quebec: Sikander, A. H. and Fyson, W. K., 1113.

**Palynology**

*Aquilapollenites*, Edmonton Fm., Alberta: Srivastava, S. K., 133.

**Pennsylvanian**

Correlation of, using blattoid insects: Durden, C. J., 1159.  
 Paleomagnetism of Cumberland Group: Roy, J. L., 663.

**Petrography**

Aiyansh lava flow, British Columbia: Sutherland Brown, A., 1460.  
 Anorthosite, Mistassini L., Labrador: Taylor, F. C. and Dence, M. R., 39.  
 Cordierite-gedrite rocks, Harcourt Tp., Ontario: Lal, R. K. and Moorhouse, W. W., 145.  
 Cratonic reactivation, Precambrian basement, W. Canada. I. Deformation and chemistry: Burwash, R. A. and Krupicka, J., 1381.  
 Late Precambrian ignimbrites, Avalon Peninsula, Newfoundland: Papezik, V. S., 1405.  
 Nepheline gneisses, Wolfe Belt, Lyndoch Tp., Ontario: Appleyard, E. C., 689.  
 Timiskaming volcanism, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.

**Petrology**

Age of Tulameen ultramafic complex, British Columbia: Findlay, D. C., 399.  
 Crystal settling in sills: a model: Gray, N. W. and Crain, I. K., 1211.  
 Differentiation of Dundonald sill, Ontario: Pearce, T. H., 75.  
 Dike-swarm of S.W. Greenland: Watt, W. S., 1320.  
 Feldspars from Adamant pluton, British Columbia: Fox, P. E. and Moore, J. M., 1199.  
 Geology and geochronology, Makkovik Bay area, Labrador: Gandhi, S. S., *et al.*, 1019.  
 High-pressure studies on anorthosite: Green, T. H., 427.  
 Mechanics of intrusion of sills: Gretener, P. E., 1415.  
 Timiskaming volcanism, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.  
 Ultramafic intrusions, Abitibi area, Ontario: MacRae, N. D., 281.

**Pliocene**

*Neohippurion*, Flaxville Gravels, Montana: Storer, J. E., 791.  
 K-Ar ages of dolerite plugs, S. Cariboo Region, B.C.: Farquharson, R. B. and Stipp, J. J., 1468.

**Pleistocene**

Glacial history and emergence, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.  
 Grayling *Thymallus*, Yukon: McAllister, D. E. and Harington, C. R., 1185.  
 Late-glacial marine overlap, W. Newfoundland: Brookes, I. A., 1397.

**Pollen**

Genus *Wodehousea*, Edmonton Fm., Alberta: Srivastava, S. K., 1307.

**Precambrian**

Aeromagnetic study, northern Manitoba: Kornik, L. J., 373.  
 Age of Coldbrook Group, New Brunswick: Cormier, R. F., 393.  
 Belle Isle, Newfoundland: Williams, H. and Stevens, R. K., 1145.  
 Compressional wave velocities, Keweenawan rocks, Lake Superior region: Halls, H. C., 555.  
 Cordierite-gedrite rocks, Harcourt Tp., Ontario: Lal, R. K. and Moorhouse, W. W., 145.  
 Correlation of Proterozoic strata, northwestern Canadian Shield: Fraser, J. A. and Tremblay, L. P., 1.

Cratonic reactivation, basement of W. Canada. I. Deformation and chemistry: Burwash, R. A. and Krupička, J., 1381.

Diaspore, in Lorrain Fm. quartzites, Ontario: Chandler, F. W. *et al.*, 337.

Genèse des roches à cordierite-anthophyllite, Rouyn-Noranda, Quebec: de Rosen-Spence, A., 1339.

Geochronology, North American, European, and Siberian Shields: Burwash, R. A., 357.

Geology and geochronology, Makivik Bay area, Labrador: Gandhi, S. S., *et al.*, 1019.

Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.

Ignimbrites, Avalon Peninsula, Newfoundland: Papezik, V. S., 1405.

Inorganic vermicular structures, Gordon Lake Fm., Ontario: Young, G. M., 795.

Microfossils, Belcher Islands, Hudson Bay: Hofmann, H. J. and Jackson, G. D., 1137.

Nepheline gneisses, Wolfe Belt, Lyndoch Tp., Ontario: Appleyard, E. A., 689.

Paleocurrents, depositional history, Great Slave Lake: Hoffman, P., 441.

Paleomagnetic evidence for extent of Mackenzie igneous events: Fahrig, W. F. and Jones, D. L., 679.

Paleomagnetism, Croker Island Complex, Ontario: Palmer, H. C., 213.

Post-ore diabase, Noranda, Quebec: Darling, R. and Suffel, G. G., 781.

K-Ar ages, east coast of Labrador: Grasty, R. L. *et al.*, 340.

Progress report on Huronian stratigraphy: Robertson, J. A. *et al.*, 335.

Radiometric ages of Nipissing diabase and Huronian metasediments, Ontario: Fairbairn, H. W. *et al.*, 489.

Rock densities, Amisk Lake - Flin Flon area: Gendzwill, D. J., 1227.

Structure, metamorphism, development of Boothia Arch, Arctic Canada: Brown, R. L. *et al.*, 525.

Sub-Cambrian unconformity, Alberta: Aitken, J. D., 193.

Timiskaming volcanism, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.

Ultramafic intrusions, Abitibi area: Ontario: MacRae, N. D., 281.

Volcanism and thickness of early Precambrian crust, N. America: Condie, K. C. and Potts, M. J., 1179.

**Prince Edward Island**  
Salt-water intrusion: Carr, P. A., 63.

**Proterozoic**  
Compressional wave velocities, Keweenawan rocks, Lake Superior region: Halls, H. C., 555.

Correlation of, northwestern Canadian Shield: Fraser, J. A. and Tremblay, L. P., 1.

Diaspore in Lorrain Fm., quartzites, Ontario: Chandler, F. W. *et al.*, 337.

Inorganic vermicular structures, Gordon Lake Fm., Ontario: Young, G. M., 795.

Nepheline gneisses, Wolfe Belt, Lyndoch Tp., Ontario: Appleyard, E. C., 689.

Paleocurrents, depositional history, Great Slave Lake: Hoffman, P., 441.

Paleomagnetic evidence for extent of Mackenzie igneous events: Fahrig, W. F. and Jones, D. L., 679.

Radiometric ages of Nipissing diabase and Huronian metasediments, Ontario: Fairbairn, H. W. *et al.*, 489.

**Pseudoleucite**  
West-central Yukon: Tempelman-Kluit, D. J., 55.

**Quaternary**  
Activity pre-1956 Muldrow Glacier surge, Alaska: Harrison, A. E., 1001.

Aiyanash lava flow, British Columbia: Sutherland Brown, A., 1460.

Alpine mudflow, Yukon: Broscoe, A. J. and Thomson, S., 219.

Ancient glacier surge in Swiss Alps: Röthlisberger, H., 863.

Climatic effects of surges of ice-sheets: Wilson, A. T., 911.

Comparison of moraines: Rutter, N. W., 991.

Erosional columns in dune sands, Cape Sable Is., Nova Scotia: Gees, R. A. and Lyall, A. K., 344.

Fission track and ferro-manganese chronology, Mid-Atlantic Ridge near 45° N.: Aumento, F., 1431.

Glacial history and emergence, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.

Glacier surges, Karakoram Himalaya, Central Asia: Hewitt, K., 1009.

Glacier surges in eastern Svalbard: Schytt, V., 867.

Glacier surges in Iceland: Thorarinsson, S., 875.

Glacier surges in West Spitzbergen: Liestol, O., 895.

Good Friday Glacier, Axel Heiberg Island: Müller, F., 891.

Ice-sheet surges and geological record: Hollin, J. T., 903.

Late-glacial marine overlap, W. Newfoundland: Brookes, I. A., 1397.

Northwest Atlantic Mid-Ocean Canyon: Heezen, B. C. *et al.*, 1441.

Ostracodes as paleoecological indicators: Delorme, L. D., 1471.

Otto Glacier, Ellesmere Island: Hattersley-Smith, G., 883.

Pleistocene cat remains, Yukon and Alaska: Harington, C. R., 1277.

Pleistocene grayling *thymallus*, Yukon: McAllister, D. E. and Harington, C. R., 1185.

Radiocarbon dates, Champlain Sea: Elson, J. A., 367.

References to glacier surges in N. America: Horvath, E. V. and Field, W. O., 845.

Sedimentation in Upper Arrow Lake, British Columbia: Pullen, M. J. L. T., 785.

Steele Glacier surge, Yukon: Stanley, A. D., 819.

Striations, grooves, drag folds, Interlake area, Manitoba: Wardlaw, N. C. *et al.*, 577.

Surges in Glacier Bay, Alaska, 1965-1968: Field, W. O., 831.

Surges on Barnes Ice Cap, Baffin Island: Løken, O. H., 899.

The 1978-1980 Sherman Glacier surge, Alaska: Bull, C., 841.

Two residual soils, Peterborough County, Ontario: Gillespie, J. E. and Protz, R., 1217.

Vernagtferner surges since 1599: Hoinkes, H., 853.

White River Ash, Yukon: Lerbekmo, J. F. and Campbell, F. A. 109.

**Quebec**

Genèse des roches à cordiérite-anthophyllite, Rouyn-Noranda: de Rosen-Spence, A., 1339.  
 Geometric analysis, cross-lamination, Gaspé: Walker, R. G., 383.  
 Gravity profile near St. Jerome: Kumarapeli, P. S. and Sharma, B., 1301.  
 Peter Kalm's observations in New France 1749: Krantz, E. H., 347.  
 Post-ore diabase, Noranda: Darling, R. and Suffel, G. G., 781.  
 St. Dominique fault: Kumarapeli, P. S., 775.  
 Structural development of Paleozoic rocks, western Gaspé: Sikander, A. H. and Fyson, W. K., 1113.

**Remote Sensing**

Airborne, for groundwater: Chase, M. E., 737.

**St. Lawrence Lowlands**

Radiocarbon dates, Champlain Sea: Elson, J. A., 367.

**Saskatchewan**

Heat flow at Eldorado: Lewis, T., 1191.  
 Mineralogy of Eastend and Whitemud Fms., Saskatchewan and Alberta: Byers, P. N., 317.

**Sea-floor Spreading**

Fission track and ferro-manganese chronology, Mid-Atlantic Ridge near 45° N.: Aumento, F., 1431.

**Sea-water**

Water properties in Median Valley, Mid-Atlantic Ridge near 45° N: Garner, D. M. and Ford, W. M., 1359.

**Sedimentary Structures**

Geometric analysis, cross-lamination, Gaspé, Quebec: Walker, R. G., 383.  
 Inorganic vermicular structures, Gordon Lake Fm., Ontario: Young, G. M., 795.

**Sedimentation**

Alpine mudflow, Yukon: Broscow, A. J. and Thomson, S., 219.  
 Carbonate - sulfate - redbed facies, Middle Carboniferous, Maritime Provinces: Schenk, P. E., 1037.  
 Erosional columns in dune sands, Cape Sable Is., Nova Scotia: Gees, R. A. and Lyall, A. K., 344.  
 Foraminiferal distribution, sedimentary facies, Grand Banks: Sen Gupta, B. K. and McMullen, R. M., 475.  
 Geometric analysis, cross-lamination, Gaspé, Quebec: Walker, R. G., 383.  
 Laboratory study, density currents: Riddell, J. F., 231.  
 Upper Arrow Lake, British Columbia: Fulton, R. J. and Pullen, M. J. L. T., 785.

**Seismic Surveys**

Absence of 'granitic' layer in basins of S. Caspian and Black Sea type: Rezanov, I. A. and Chamo, S. S., 671.  
 Deep resistivity measurements, Fraser Valley, B.C.: Samson, J. C., 1129.  
 First refraction arrivals in Gaspé from Labrador and Quebec: Rankin, D. S. *et al.*, 771.  
 Upper Arrow Lake, British Columbia: Fulton, R. J. and Pullen, M. J. L. T., 785.

**Seismology**

Compressional wave velocities, Keweenawan rocks, Lake Superior region: Halls, H. C., 555.  
 Crustal structure, northwestern Ontario: Hall, D. H. and Hajnal, Z., 81.  
 Detection of earthquakes and underground explosions in Asia: Basham, P. W., 1455.  
 Rayleigh-wave dispersion in the Pacific: Savage, J. C. and White, W. R. H., 1289.  
 Theoretical seismograph response at Yellowknife to explosion in Nevada: Hasegawa, H. S. and Whitham, K., 517.

**Shorelines**

Late-glacial marine overlap, W. Newfoundland: Brookes, I. A., 1397.

**Soils**

Two residual soils, Peterborough County, Ontario: Gillespie, J. E. and Protz, R., 1217.

**Solar System**

Recalculation of age: Cumming, G. L., 719.

**Springs**

Karst springs near Banff, Alberta: van Everdingen, R. O., 545.

**Statistical Methods**

Model for varve disposition, glacial Lake Barlow-Ojibway: Agterberg, F. P. and Banerjee, I., 625.  
 Size frequency distribution, oil and gas reserves, Western Canada: McCrossan, R. G., 201.

**Statistics**

Sediment parameters and environment discrimination: Greenwood, B., 1347.

**Stratigraphy**

Belle Isle, Newfoundland: Williams, H. and Stevens, R. K., 1145.  
 Mineralogy of Eastend and Whitemud Fms., Saskatchewan and Alberta: Byers, P. N., 317.  
 New Lower Devonian rock unit, Arctic Canada: Ormiston, A. R., 1105.  
 Progress report on Huronian stratigraphy: Robertson, J. A., 335.  
 Proterozoic paleocurrents, Great Slave Lake: Hoffman, P., 441.  
 Provenance of Kneehills Tuff, S. Alberta: Binda, P. L., 510.  
 Tertiary strata off Nova Scotia: Marlowe, J. I., 1077.

**Stromatoporoid**

Devonian, Alberta: Fischbuch, N. R., 167.

**Structural Basins**

Proterozoic paleocurrents, depositional history, Great Slave Lake: Hoffman, P., 441.

**Structural Geology**

Aeromagnetic study, northern Manitoba: Kornik, L. J., 373.

Balanced cross sections: Dahlstrom, C. D. A., 743.

Cratonic reactivation, Precambrian basement, w. Canada. I. Deformation and chemistry: Burwash, R. A. and Krupicka, J., 1381.

Development of Paleozoic rocks, western Gaspé, Quebec: Sikander, A. H. and Fyson, W. K., 1113.

Displacement and stress field, Cobéquid Fault, N.S.: Eisbacher, G. H., 1095.

Evolution of Slocan Syncline, British Columbia (Discussion): Fyles, J. T., 802.

Geology and geochronology, Makkovik Bay area, Labrador: Gandhi, S. S., *et al.*, 1019.

Northwest Atlantic Mid-Ocean Canyon: Heezen, B. C. *et al.*, 1441.

St. Dominique fault, S. Quebec: Kumarapeli, P. S., 775.

Striations, grooves, drag folds, Interlake area, Manitoba: Wardlaw, N. C. *et al.*, 577.

Structure, metamorphism, development of Boothia Arch, Arctic Canada: Brown, R. L. *et al.*, 525.

Sub-Cambrian unconformity, Alberta: Aitken, J. D., 193.

**Structure**

Bald Mountain, Mid-Atlantic Ridge: Aumento, F. and Loncarevic, B. D., 11.

Crust, northwestern Ontario: Hall, D. H. and Hajnal, Z., 81.

Crust, northwestern Ontario: McGrath, P. H. and Hall, D. H., 101.

Gravity profile near St. Jerome, Quebec: Kumarapeli, P. S. and Sharma, B., 1301.

**Submarine Canyons**

Northwest Atlantic Mid-Ocean Canyon: Heezen, B. C. *et al.*, 1441.

**Sulfides**

Des gisements cupro-zincifères, Rouyn-Noranda, Québec: de Rosen-Spence, A., 1339.

Post-ore diabase, Noranda, Quebec: Darling, R. and Suttle, G. G., 781.

**Superior Province**

Aeromagnetic study, northern Manitoba: Kornik, L. J., 373.

Compressional wave velocities, Keweenawan rocks: Halls, H. C., 555.

Crustal structure, refraction seismology, northwestern Ontario: Hall, D. H. and Hajnal, Z., 81.

Crustal structure, regional magnetic anomalies, northwestern Ontario: McGrath, P. H. and Hall, D. H., 101.

Diaspore in Lorrain Fm. quartzites, Ontario: Chandler, F. W. *et al.*, 337.

Inorganic vermicular structures, Gordon Lake Fm., Ontario: Young, G. M., 795.

Paleomagnetism, Croker Island Complex, Ontario: Palmer, H. C., 213.

Radiometric ages of Nipissing diabase and Huronian metasediments, Ontario: Fairbairn, H. W. *et al.*, 489.

Timiskaming volcanism, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.

Ultramafic intrusions, Abitibi area, Ontario: MacRae, N. D., 281.

**Switzerland**

Ancient glacier surge in Swiss Alps: Röthlisberger, H., 863.

**Tectonics**

Mode tectonique, bordure ouest, partie centrale de la fosse du Labrador: Seguin, M., 1365.

**Tertiary**

K-Ar ages of dolerite plugs, S. Cariboo Region, B.C.: Farquharson, R. B. and Stipp, J. J., 1468.

Strata off Nova Scotia: Marlowe, J. I., 1077.

**Thermal Springs**

Carbonate and sulfate saturation, thermal and mineral springs, S. Rocky Mountains: van Everdingen, R. O., 1421.

**Triassic**

Age of Tulameen ultramafic complex, British Columbia: Findlay, D. C., 399.

Meteorite origin, Mistastin L., Labrador: Taylor, F. C. and Dence, M. R., 39.

**Ukrainian Shield**

Precambrian geochronology: Burwash, R. A., 357.

**Ultramafic Rocks**

Abitibi area, Ontario: MacRae, N. D., 281.

Age of Tulameen ultramafic complex, British Columbia: Findlay, D. C., 399.

**Unconformities**

Sub-Cambrian, Alberta: Aitken, J. D., 193.

**Uplifts**

Glacial history and emergence, Hudson Bay: Andrews, J. T. and Falconer, G., 1263.

**Wells and Drill Holes**

Salt-water intrusion, P.E.I.: Carr, P. A., 63.

**Western Canada**

Coral-like fossils, Northern Cordillera: Handfield, R. C., 782.  
Cratonic reactivation, Precambrian basement of. I. Deformation and chemistry: Burwash, R. A. and Krupička, J., 1381.  
Large-scale magnetotelluric survey: Caner, B. *et al.*, 1245.  
Regional geochemical study, Slave Pt. carbonates: Cameron, E. M., 247.  
Size frequency distribution, oil and gas reserves: McCrossan, R. G., 201.

**Wyoming**

Reaction of mixed hydroxides with bentonite: Clark, J. S. and Ross, G. J., 47.

**West Greenland**

Precambrian geochronology: Burwash, R. A., 357.

**West Spitzbergen**

Glacier surges: Liestøl, O., 895.

**Varves**

Model for varve deposition, glacial Lake Barlow-Ojibway: Agterberg, F. P. and Banerjee, I., 625.

**Vertebrates**

*Ichthyodectes* and *Holcolepis*, Cretaceous, N.W.T.: Waldman, M., 1316.  
Pleistocene cat remains, Yukon and Alaska: Harington, C. R., 1277.

**Volcanic Rocks**

Genèse des roches à cordiérite-anthophyllite, Rouyn-Noranda, Québec: de Rosen-Spence, A., 1339.

**Volcanism**

Aiyansh lava flow, British Columbia: Sutherland Brown, A., 1460.  
Calc-alkaline, and thickness of Precambrian crust, N. America: Condie, K. C. and Potts, M. J., 1179.  
K-Ar ages of dolerite plugs, S. Cariboo Region, B.C.: Farquharson, R. B. and Stipp, J. J., 1468.  
Late Precambrian Ignimbrites, Avalon Peninsula, Newfoundland: Papezik, V. S., 1405.  
Provenance of Kneehills Tuff, S. Alberta: Bindu, P. L., 510.  
Timiskaming, Kirkland Lake area, Ontario: Cooke, D. L. and Moorhouse, W. W., 117.  
White River Ash, Yukon: Lerbekmo, J. F. and Campbell, F. A., 109.

**Yukon**

Alpine mudflow, Steele Creek: Broscoe, A. J. and Thomson, S., 219.  
Comparison of moraines: Rutter, N.W., 991.  
Pleistocene cat remains, Alaska: Harington, C. R., 1277.  
Pleistocene grayling *thymallus*: McAllister, D. E. and Harington, C. R., 1185.  
Pseudoleucite, mineralogy of: Tempelman-Kluit, D. J., 55.  
Steele Glacier surge: Stanley, A. D., 819.

**Yukon Territory**

White River Ash, Yukon: Lerbekmo, J. F. and Campbell, F. A., 109.

<b>Douglas S. Rankin, Ravi Ravindra, and David Zwicker</b> Preliminary interpretation of the first refraction arrivals in Gaspé from shots in Labrador and Quebec	771
<b>P. S. Kumarapeli</b> St. Dominique fault: A new interpretation	775
<b>Richard Darling and G. G. Suffel</b> Evidence for post-ore metadiabase at the Horne Mine, Noranda, Quebec	781
<b>Robert C. Handfield</b> Early Cambrian coral-like fossils from the Northern Cordillera of Western Canada	782
<b>R. J. Fulton and M. J. L. T. Pullen</b> Sedimentation in Upper Arrow Lake, British Columbia	785
<b>John E. Storer</b> An Upper Pliocene neohipparrion from the Flaxville Gravels, Northern Montana	791
<b>G. M. Young</b> Inorganic origin of corrugated vermicular structures in the Huronian Gordon Lake Formation near Flack Lake, Ontario	795
<b>DISCUSSIONS:</b>	
<b>W. R. Jacoby</b> Gravity variations and precipitation: Discussion	801
<b>A. M. Luiz</b> Gravity variations and precipitation: Reply	802
<b>James T. Fyles</b> Evolution of the Slocan Syncline in south-central British Columbia: Discussion	802

## AUGUST (PART 2)

### SURGING GLACIER CONFERENCE ISSUE

#### ST. HILAIRE CONFERENCE

<b>J. W. Ambrose</b> Introduction to the "Seminar on the causes and mechanics of glacier surges", and the "Symposium on Surging Glaciers and their Geologic Effect"	i
<b>Fritz Müller</b> Introduction: Seminar on the causes and mechanics of glacier surges	iii
<b>Mark F. Meier and Austin Post</b> What are glacier surges?	807
<b>A. D. Stanley</b> Observations of the surge of Steele Glacier, Yukon Territory, Canada	819
<b>William O. Field</b> Current observations on three surges in Glacier Bay, Alaska, 1965-1968	831
<b>Colin Bull</b> The 1978-1980 surge of the Sherman Glacier, south-central Alaska	841
<b>Eva V. Horvath and William O. Field</b> References to glacier surges in North America	845
<b>Herfried C. Hoinkes</b> Surges of the Vernagtferner in the Ötztal Alps since 1599	853
<b>H. Röthlisberger</b> Evidence for an ancient glacier surge in the Swiss Alps	863
<b>V. Schytt</b> Some comments on glacier surges in eastern Svalbard	867
<b>Sigurdur Thorarinsson</b> Glacier surges in Iceland, with special reference to the surges of Brúarjökull	875
<b>G. Hattersley-Smith</b> Recent observations on the surging Otto Glacier, Ellesmere Island	883
<b>Fritz Müller</b> Was the Good Friday Glacier on Axel Heiberg Island surging?	891
<b>Olav Liestøl</b> Glacier surges in West Spitsbergen	895
<b>O. H. Løken</b> Evidence of surges on the Barnes Ice Cap, Baffin Island	899
<b>John T. Hollin</b> Ice-sheep surges and the geological record	903
<b>A. T. Wilson</b> The climatic effects of large-scale surges of ice sheets	911
<b>G. de Q. Robin</b> Initiation of glacier surges	919

J. Weertman	Water lubrication mechanism of glacier surges	929
Louis A. Lliboutry	Contribution à la théorie des ondes glaciaires	943
Lawrence E. Nielsen	The ice-dam, powder-flow theory of glacier surges	955
John J. Jonas and Fritz Müller	Deformation of ice under high internal shear stresses	963
G. de Q. Robin and P. Barnes	Propagation of glacier surges	969
William J. Campbell and Lowell A. Rasmussen	Three-dimensional surges and recoveries in a numerical glacier model	979
Mark F. Meier	Seminar on the causes and mechanics of glacier surges, St. Hilaire, Canada, September 10-11, 1968: A Summary	987
<b>BANFF CONFERENCE</b>		
Nathaniel W. Rutter	Comparison of moraines formed by surging and normal glaciers	991
A. E. Harrison	Glacial activity preceding the 1956 Muldrow Glacier surge in Alaska	1001
Kenneth Hewitt	Glacier surges in the Karakoram Himalaya (Central Asia)	1009

## OCTOBER

### ARTICLES:

S. S. Gandhi, R. L. Grasty, and R. A. F. Grieve	The geology and geochronology of the Makkovik Bay area, Labrador	1019
Paul E. Schenk	Carbonate-sulfate-redbed facies and cyclic sedimentation of the Windsorian Stage (Middle Carboniferous), Maritime Provinces	1037
D. I. Gough	Incremental stress under a two-dimensional artificial lake	1067
James I. Marlowe	A succession of Tertiary strata off Nova Scotia, as determined by dredging	1077
Gerhard H. Eissacher	Displacement and stress field along part of the Cobequid Fault, Nova Scotia	1095
Allen R. Ormiston	A new Lower Devonian rock unit in the Canadian Arctic Islands	1105
A. H. Sikander and W. K. Fyson	Structural development of the Paleozoic rocks of western Gaspé, Quebec	1113
J. C. Samson	Deep resistivity measurements in the Fraser Valley, British Columbia	1129
H. J. Hofmann and G. D. Jackson	Precambrian (Aphebian) microfossils from Belcher Islands, Hudson Bay	1137
Harold Williams and R. K. Stevens	Geology of Bell Isle-Northern extremity of the deformed Appalachian miogeosynclinal belt	1145
Christopher J. Durden	Pennsylvanian correlation using blattoid insects	1159
Kent C. Condé and Mark J. Potts	Calc-alkaline volcanism and the thickness of the early Precambrian crust in North America	1179
D. E. McAllister and C. R. Harington	Pleistocene grayling, <i>Thymallus</i> , from Yukon, Canada	1185
Trevor Lewis	Terrestrial heat flow at Eldorado, Saskatchewan	1191
Peter E. Fox and John M. Moore	Feldspars from Adamant pluton, British Columbia	1199
N. H. Gray and I. K. Crain	Crystal settling in sills: A model for suspension settling	1211
J. E. Gillespie and R. Protz	Evidence for the residual character of two soils, one on granite, the other on limestone in Peterborough County, Ontario	1217
D. J. Gendzwill	Densities of Precambrian rocks of the Amisk Lake - Flin Flon area. A detailed study	1227
B. Caner, P. A. Camfield, F. Andersen, and E. R. Niblett	A large-scale magnetotelluric survey in Western Canada	1245
J. T. Andrews and G. Falconer	Late glacial and postglacial history and emergence of the Ottawa Islands, Hudson Bay, Northwest Territories: Evidence on the deglaciation of Hudson Bay	1263
C. R. Harington	Pleistocene remains of the lion-like cat ( <i>Panthera atrox</i> ) from the Yukon Territory and northern Alaska	1277
J. C. Savage and W. R. H. White	A map of Rayleigh-wave dispersion in the Pacific	1289
<b>NOTES:</b>		
P. S. Kumarapeli and Bijon Sharma	A gravity profile across the shield margin in the vicinity of St. Jerome, Quebec	1301
Satish K. Srivastava	Pollen genus <i>Wodehousea</i> and its stratigraphic significance in the Edmonton Formation (Maestrichtian), Alberta, Canada	1307

J. L. Roy, W. A. Robertson, and C. Keeping	Magnetic "Field Free" spaces for paleomagnetism, rock magnetism, and other studies	1312
M. Waldman	<i>Ichthyodectes</i> and <i>holcolepis</i> from the Cretaceous of Lac des Bois, Northwest Territories, Canada	1316
W. Stuart Watt	The coast-parallel dike swarm of southwest Greenland in relation to the opening of the Labrador Sea	1320
D. J. Gendzwill and J. Maybank	Gravity variations and precipitation onset	1322

## DECEMBER

### ARTICLES:

P. Andrieux et J. F. Clark	Application des méthodes électriques de prospection à l'étude du cratère d'Holleford	1325
Andrée de Rosen-Spence	Genèse des roches à cordiérite-anthophyllite des gisements cupro-zinofères de la région de Rouyn-Noranda, Québec, Canada	1339
Brian Greenwood	Sediment parameters and environment discrimination: an application of multivariate statistics	1347
D. M. Garner and Wm. L. Ford	Mid-Atlantic Ridge near 45°N. IV. Water properties in the Median Valley	1359
Maurice Seguin	Configuration et nature du mode tectonique en bordure ouest de la partie centrale de la fosse du Labrador	1365
R. A. Burwash and J. Krupička	Cratonic reactivation in the Precambrian basement of western Canada. I. Deformation and chemistry	1381
Ian A. Brookes	Late-glacial marine overlap in western Newfoundland	1397
V. S. Papezik	Late Precambrian ignimbrites on the Avalon Peninsula, Newfoundland	1405
P. E. Gretener	On the mechanics of the intrusion of sills	1415
R. O. van Everdingen	Degree of saturation with respect of $\text{CaCO}_3$ , $\text{CaMg}(\text{CO}_3)_2$ , and $\text{CaSO}_4$ for some thermal and mineral springs in the Southern Rocky Mountains, Alberta and British Columbia	1421
F. Aumento	The Mid-Atlantic Ridge near 45°N. V. Fission track and ferro-manganese chronology	1431
Bruce C. Heezen, G. Leonard Johnson, and Charles D. Hollister	The Northwest Atlantic Mid-Ocean Canyon	1441
<b>NOTES:</b>		
P. W. Basham	Canadian detection and discrimination thresholds for earthquakes and underground explosions in Asia	1455
Denis M. Shaw and Shirley M. Gibson	Calculation of the diopside-fluorite eutectic using ionic models. Comments on 'The system $\text{CaF}_2-\text{CaMgSi}_2\text{O}_6$ '	1458
